

I listen to K-Love radio here on 91.3 in the San Antonio area. K-love provides non-commercial programming which first of all is very refreshing compared to the other stations in my area. I have been in numerous retail businesses in the San Antonio area that have K-Love on. This is not limited to religious stores - some regular retail stores have been playing K-Love as well. Please do not allow K-Love's influence in San Antonio to be removed. This consistent, positive service could not be replaced easily by any local station.
Thank you
